FRENCH UCITS

Paris - La Défense, 25 September 2023

Sir, Madam, Dear Customers,

Thank you for the trust you place in our management and are pleased to count you among the shareholders of the Société d'Investissement à Capital Variable (SICAV) **AXA IM Euro Selection**, a French UCITS (hereinafter the 'Fund').

Following the publication of the Delegated Regulation amending the 'SFDR' Regulation, dated 20 February 2023, to integrate additional information concerning fossil gas and nuclear, the Autorité des Marchés Financiers (AMF) expects stakeholders to update pre contractual appendices for funds with a sustainability objective (Article 9) or that promote environmental and/or social characteristics (Article 8) with regard to the SFDR regulation.

As a result, from 29 September 2023, the pre contractual appendices of your Fund will be updated in accordance with the new requirements for gas and nuclear activities related to the rules of European taxonomy (new YES/NO question and, if the answer to this question is YES, the taxonomy graph is modified).

It should be noted that this regulatory change does not constitute a change and does not require AMF approval or specific action on your part.

The new pre contractual information appendix attached to its prospectus will, from 29 September 2023, be made available online at the address of our website: <https://funds.axa-im.com/>

Please note that all regulatory documentation will be available upon request from:
